

The PlanSource Advantage program is an exclusive, strategic program between leading national carriers and PlanSource

The Standard is a leading provider of financial products and services, including retirement plan products and services, group and individual disability insurance, group life and accidental death and dismemberment insurance, group dental and vision insurance, absence management services, individual annuities and investment advisory services.

How We Work Together

The Standard has partnered with PlanSource to offer their products on our best-in-class benefits shopping and enrollment platform. PlanSource offers a pre-established integration for The Standard products that makes it easy to setup and support. When employers offer The Standard products to their employees, they receive monetary credits, which offset the cost of software fees, making the PlanSource system even more affordable.

What Makes PlanSource and The Standard the Best?
