## Mapping Cognos 10 to Cognos Analytics

*Business Intelligence*

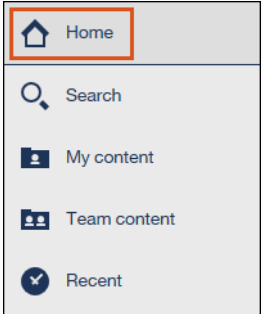

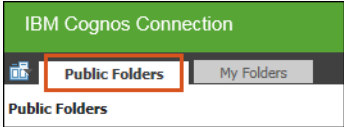

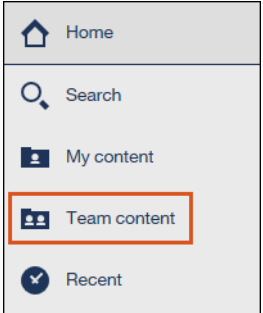

### User Interface Comparison of Cognos 10 and Cognos Analytics

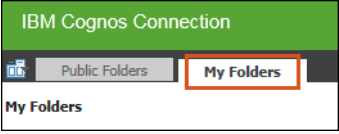

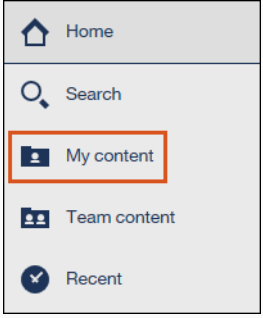

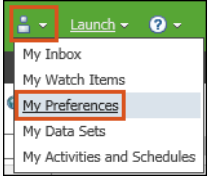

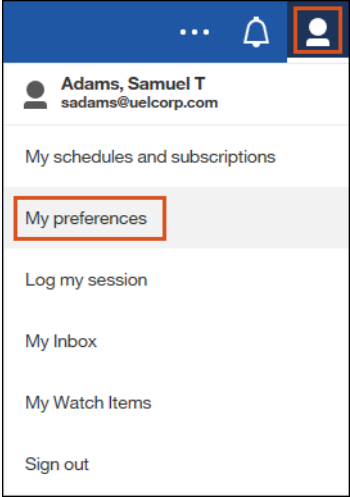

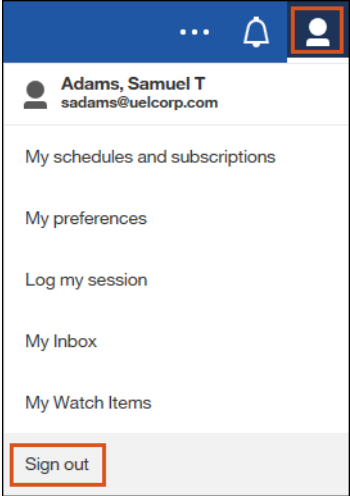

The user interface of Cognos Analytics includes significant changes compared to Cognos 10.

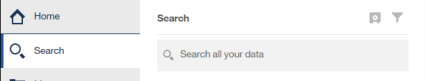

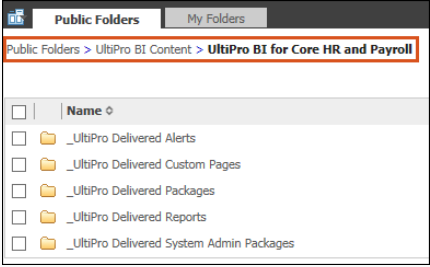

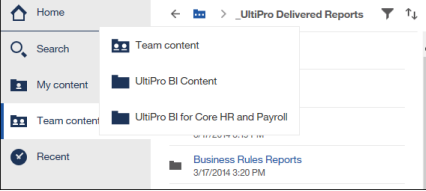

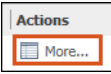

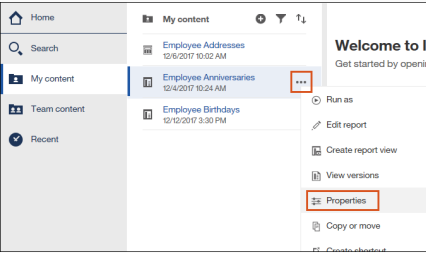

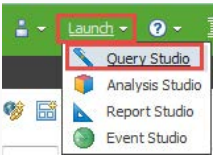

Some of the biggest changes from Cognos 10 to Cognos Analytics include:

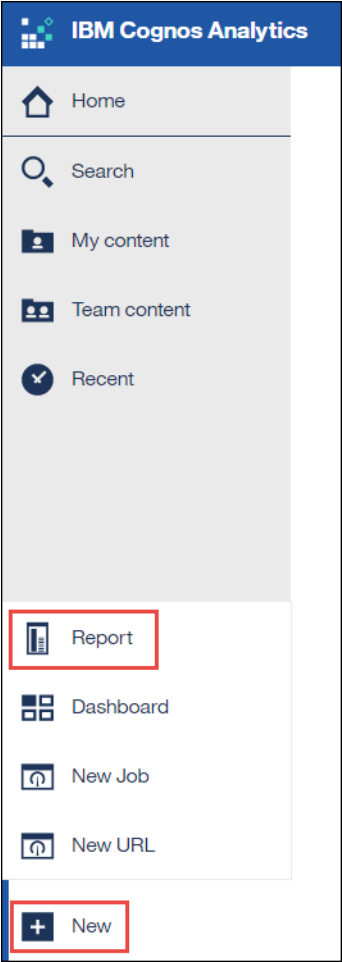

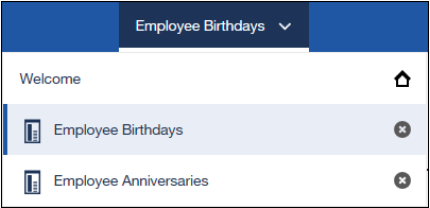

- Cognos Connection has been replaced by the Cognos Analytics Portal. Cascading navigation menus provide access to the folder structure. On-demand menus provide access to actions based on your current selection.
- Editing reports no longer requires launching a separate studio (Report Studio or Query Studio). You can edit reports directly in Cognos Analytics Reporting.

Table 1 Portal Navigation

Task	Cognos 10 Location	Cognos Analytics Location
Navigate to your Home view		
View shared content	<p>Public Folders</p> 	<p>Team Content</p> 

Task	Cognos 10 Location	Cognos Analytics Location
View your content	<p>My Folders</p> 	<p>My Content</p> 
Set your user preferences		
Sign out of Business Intelligence		

Task	Cognos 10 Location	Cognos Analytics Location
Search for content		
Navigate the folders		
View or set object properties	<p>Properties icon in the Actions column</p> 	<p>Properties link in the on-demand object menu</p> 
Start a new report	<p>Launch &gt; Report Studio</p> 	<p>New &gt; Report</p>

Task	Cognos 10 Location	Cognos Analytics Location
		<p>New &gt; Report</p>  <p>The screenshot shows the IBM Cognos Analytics navigation menu. The menu items are: Home, Search, My content, Team content, Recent, Report (highlighted with a red box), Dashboard, New Job, New URL, and New (highlighted with a red box).</p>
<p>Switch between open reports and welcome page</p>	<p>(not applicable)</p>	<p>Title of the report (or Welcome) in the application bar</p>  <p>The screenshot shows the application bar with the title 'Employee Birthdays' and a dropdown arrow. Below the bar, the report titles 'Welcome', 'Employee Birthdays', and 'Employee Anniversaries' are listed, each with a close button (X).</p>

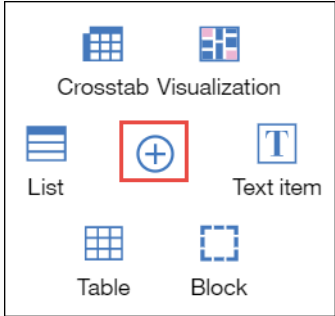

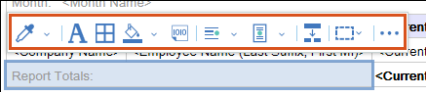

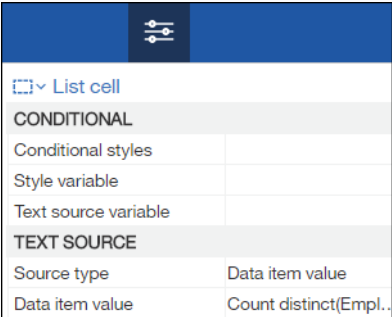

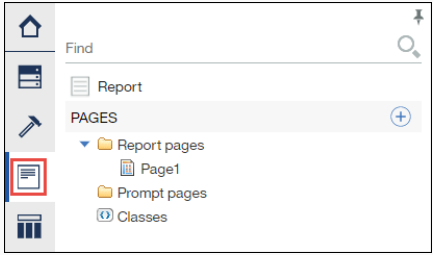

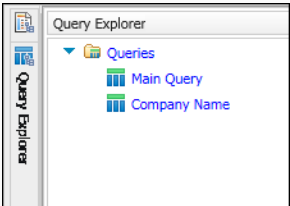

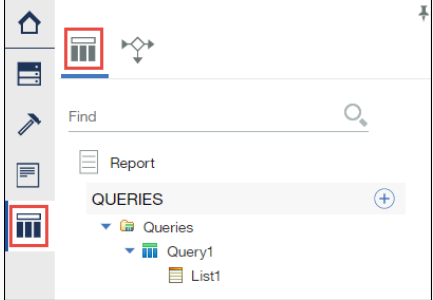

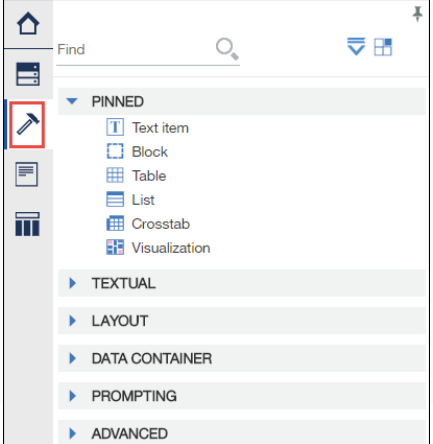

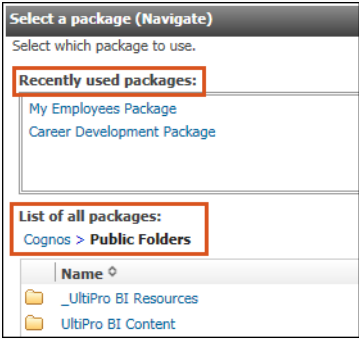

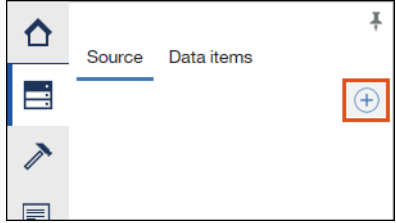

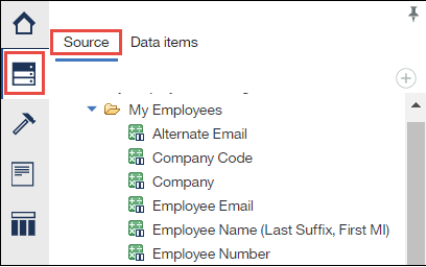

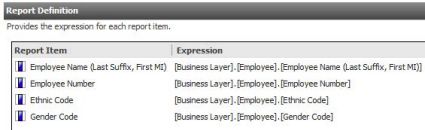

Task	Cognos 10 Location	Cognos Analytics Location
		<div data-bbox="1058 1455 1443 1583"><p>Companion applications</p><p> Event Studio </p></div>

Table 2 Report Editing

Task	Cognos 10 Location	Cognos Analytics Location
<p>Select the layout for a new report</p>	<p>(not applicable)</p>	<p>(Select the + icon in the middle of the work area)</p> 
<p>Set formatting, layout, and other options</p>	<p>Query Studio menu bar, toolbar, and style bar</p> 	<p>On-demand toolbars based on selected item</p> 
<p>View or set properties for an object in the report layout</p>	<p>(not applicable)</p>	<p>Properties pane in the upper right section of the Reporting work area (show or hide with the Properties icon)</p> 

Task	Cognos 10 Location	Cognos Analytics Location
View the Pages in the report	(not applicable)	<p>Pages icon</p> 
View the Queries in the report	<p>Query Explorer</p> 	<p>Queries icon &gt; Query Explorer tab</p> 
Access the Toolbox	(not applicable)	

Task	Cognos 10 Location	Cognos Analytics Location
Open a package		
Access available data items in the selected package	(not applicable)	<p>Data &gt; Source</p> 
View the data items currently used in the report		<p>Data &gt; Data Items</p>
