

1. When you log in for the first time, menu hints appear next to select items
2. Select the dot to learn more about the item

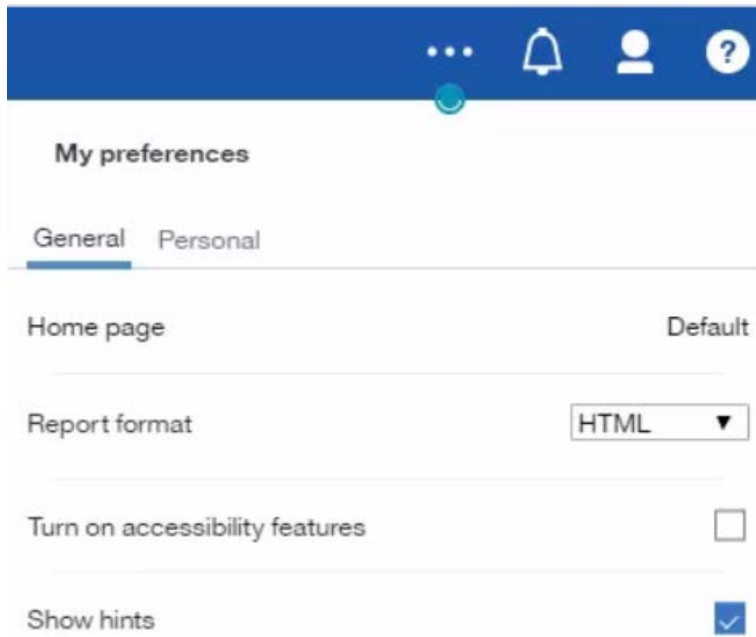

3. Select the 'X' to close the dialogue box and turn off the hint. Or, turn off all hints by select "Turn off Hints"

4. You can turn hints on again under My Preferences

5. Select box for Show Hints

The screenshot shows the 'My preferences' settings page. At the top, there is a blue navigation bar with icons for a menu, notifications, user profile, and help. Below the bar, the page is titled 'My preferences' and has two tabs: 'General' (selected) and 'Personal'. The settings are as follows:

Setting	Value
Home page	Default
Report format	HTML
Turn on accessibility features	<input type="checkbox"/>
Show hints	<input checked="" type="checkbox"/>
