## Case Study: Reporting strengths, and the power of moving month-long tasks to just minutes

### Challenge:

- Consolidating disparate systems
- Inaccurate data streams
- Targeting unique employee populations

### Solution:

- Benefits management is no easy task, and without PlanSource, BrandSafway's team of 6 would have to double in size to keep up with the tasks and responsibilities. Instead, this dedicated team of professionals leverages the tech solutions and accurate data streams PlanSource brings, ensuring effective actions are taken and costs remain low. For BrandSafway, it's this reporting that remains key to their success.

› **Dedicated Account Team:** With PlanSource, BrandSafway has a support team working to assist with all questions and receiving and implementing feedback toward continuous improvement.

› **Improved Data Accuracy:** BrandSafway is now able to rely on accurate, streamlined reporting. They have the ability to instantly zero in their research on the exact data points they need, providing a strong foundation to stand on and peace of mind.

› **Employee Integration:** After using the system for enrollment, the benefits team has found that the employees are more confident in their choices.
