TOGETHER

As a QuickConnect partner, Brain Power improves employee retention by showing your employees everything you invest in them. Available through PlanSource's modern and intuitive benefits administration solution, Brain Power offers a custom branded total benefits and compensation statement for each employee.

BRAINPOWER SOFTWARE

Brain Power Software is a technology company with the mission of continually engaging employees throughout their life-cycle within an organization. The proprietary cloud-based platform provides employer- branded, data-driven, multi-channel content distribution to engage employees from on-boarding through off-boarding.

Employees Benefit

- Gives a look at the full benefits package in one place that is interactive and provides details about each benefit.
- Reinforces education about benefits and reminds employees what they enrolled in and how it can help them and their families.
- Shows value for all benefits that the employer provides, including vacation time, non-traditional perks, holidays and more.
- Improves employee loyalty by understanding how much employers invest in them and the full value that is offered beyond just base pay.
- Providing convenient access to employees, statements can be accessed on any device, printed or online directly from their PlanSource account.

Total Compensation Statements

Employees don't always know the full investment their employers make in them.

The value of employees' insurance benefits, retirement programs and perks aren't always listed on a paystub.

Improve employee retention by showing your employees the true value of their compensation package.

Create a more engaged workforce by providing a transparent offering that shows employees why they are important to you.
