Building better benefits experiences through innovative technology and partnerships

## PlanSource Boost

A groundbreaking program that provides organizations with industry-leading benefits technology and carrier API integrations that modernize the benefits experience for employees and HR teams. The Member Portal integration is one of the available Boost integrations through the PlanSource Boost program.

## Member Portal Integration

On average, employees must track 100+ different passwords between their professional and personal life. By providing an automated login experience to the insurance carrier's Member Portal, we help employees get where they need to go and have one less thing to worry about.

### FROM THE INSURANCE CARRIER'S MEMBER PORTAL EMPLOYEES CAN:

- » Check status of evidence of insurability documentation.
- » View their summary of benefits.
- » Access forms and materials related to their coverage.
- » Find educational information regarding their benefits.
- » Submit claims and track status.
